### Student Responsibilities

Always be respectful and kind to teachers and other students. Students must not run around waiting area or studio – this is for everyone's safety. Young students must not leave the studio waiting area until picked up by parent. Please do not send food, soft

drinks, or energy drinks into the studio....Water is the only beverage allowed in the studio. Please enter studio when teacher invites you in and be seated for a quick headcount and then be ready to ....DANCE. Most importantly, .have fun, learn to love dance and keep smiling – Everyone dances better with a smile on their face.

### **Parents Responsibilities**

Help your dancer understand the disciplines that dance can bring. Remind them to listen to their teachers. Please make sure that dancers arrive for class on time. We ask that you respect the training and knowledge of the teachers – teachers must be able to maintain authority in the class so that all dancers can enjoy the class. Children that dance together sometimes make friendships that last a lifetime.
